**WORKSHOP DESCRIPTION:** Prior to the workshop, the participants are encouraged to practice creating RDA bibliographic records for each format with the option of CJK languages, and the scanned surrogates will be available at the training wiki in advance. Participants can send questions to trainers before the workshop, and certain questions will be discussed and covered in the workshop.

During the workshop, trainers will facilitate small group discussion for each format and encourage the discussion of thinking process for cataloging. This workshop attempts to cover the formats including Monograph, Serials, Video-recording, Sound recording, Scores, Maps, Microform/reproduction and Two-dimensional graphics.

With RDA LC implementation date--March 31st, 2013 coming up, many training resources used and more catalogers creating RDA bibliographic records already, we look forward to having an active discussion and deeper learning process from all participants in this workshop.
